

## Bill of Materials – Mini Skiff 14

*Note: This is the minimum material needed plus a 15% waste factor. Some builders will require more wood flour and resin than others.*

Plywood: 4' x 8' [122 cm x 244 cm] sheets

- 4mm: 3 each  
- 6mm: 1 each

Epoxy Resin (and hardener): 3.0 gallons [11.3 Liters]

Fiberglass Cloth 6 ounce, 60" wide 10 yards (9.1 M)  
[200 g/m<sup>2</sup>, 152 cm]

Wood Flour: 2 quarts

Additional material will be required for gunwales, seating, etc.

**Note: Amounts listed are minimum quantities. It may be more economical to purchase epoxy and fiberglass in slightly greater quantities. Check with your vendor for pricing details.**
